Daniel Tarazona

Senior Mobile / React / Game Developer
Medellin, Colombia • shiftcipher@hotmail.com • +57 315 837 5156 • https://github.com/danieltarazona

Education

UNIVERSIDAD DEL VALLE Cali, Colombia
Bachelor's Degree in Software Engineering (Pursued; Coursework Completed) 2017 - 2022
Mastered advanced data structures and interpreters in Scheme (Lisp) and C++, processors and computer architecture, interactive programming in Java, calculus, linear algebra, physics, machine learning, artificial intelligence, and game design and development in Unity.

Technologies: Scheme (Lisp), Racket (Lisp), C/C++, Java, Python, Jupyter, and LaTeX. Despite withdrawing due to unforeseen personal circumstances during COVID, built a robust foundation in core engineering principles through hands-on projects, priming for high-impact roles in sophisticated software development ecosystems.

SERVICIO NACIONAL DE APRENDIZAJE (SENA) Cali, Colombia
Associate's Degree in Information Systems Analysis and Development 2015 - 2018
Relevant Coursework: SQL, Node.js SDK for Oracle, Oracle, MySQL, PostgreSQL, Android, C#, and PHP.

MASSACHUSETTS INSTITUTE OF TECHNOLOGY - UNIVERSIDAD ICESI Cali, Colombia
MIT - Global Startup Labs Mobile Technology Entrepreneurship 2013
Immersed in Django, Python, Java, Android, HTML, CSS3, SASS, Bootstrap, Emmet, fostering entrepreneurial acumen in mobile technology. Explored innovative startup methodologies at gsl.mit.edu, blending technical prowess with business innovation to launch scalable digital ventures.

UNIVERSIDAD DEL VALLE Cali, Colombia
Bachelor's Degree in Architecture 2009 - Present
Explored color and light in architecture alongside multiple expression techniques. Harnessed technologies such as Autodesk Revit, Autodesk AutoCAD, Autodesk 3D Max, Rhinoceros 3D, Grasshopper 3D, Blender, Cycles, Lumion, Adobe Illustrator, Adobe Photoshop.

COLEGIO PARROQUIAL SANTIAGO APÓSTOL Cali, Colombia
High School Technical Degree in Industrial Design 1999 - 2009
Gained foundational skills in industrial design, utilizing Corel Draw and Microsoft Office and Wix.com to cultivate early expertise in visual and technical communication.

Technical Skills & Projects

Programming: Swift, C, C++, JavaScript, Node.js, React Native, Python, GraphQL, HTML5, CSS3, Tailwind CSS.

Design: Figma, Autodesk Revit, Autodesk AutoCAD, Unreal Engine 5, Rhinoceros 3D, Blender, Grasshopper 3D.

Spoken Languages:
Spanish (Native), English (C1 Full Professional Proficiency), French (B1 Professional Working Proficiency), Japanese (A2 Limited Working Proficiency), German (A1 Elementary Proficiency).

DataKit - Stealth Productivity Suite - iOS / iPadOS / macOS App *May 2021 - Ongoing*
DataKit is a suite of AI-powered productivity tools and apps for iOS, iPadOS, and macOS includes DataKeyboard an iPadOS / macOS app typing and work automation or DataCapture a chrome extension for data management Contributed to open source p r o j e c t s as OpenParsec for remote macOS control, L u m o s E n g i n e iOS Support, iOS/X c o d e fixes and s u p p o r t f o r S D L 3, P y t h o n improvements f o r O v e r p a s s API, Swift S D K enhancements for CouchBase Lite, C and iOS support for Raylib.

Lululemon Athletica - GuestApp - iOS App *April 2022 - September 2025*
Developed an SDK with Awin tracking and Adobe Analytics for conversion and sales insights. Redesigned membership experience. Leveraged Contentful, Splunk, and rigorous testing for quality. Proposed legacy code improvements. Two times winner of Innovation Week, Weardrop Widget and RealityKit shoes presentation.

GSS Gyro Stabilized Systems - Orion - macOS App *April 2024 - August 2024*
Migrated a Linux app to macOS for 4K gyrostabilized camera control on handheld controllers used in Commercial and Military industries on US and Japan. Using Xcode,C/C++/C# with FFmpeg, GStreamer, Blackmagic SDI and DirectLink with integrated global navigation, AR with interactive layers, and multilingual support. Achieved 60+ FPS and cut development and deployment time by 40% in cross-platforms.

Colombia Mobile Community Lead - Volunteer - iOS App *November 2023 - April 2024*
Built an iOS Design System with Figma and Endava BeeQ. Integrated AWS Amplify/Cognito with CLI automation. Certified in AI, RAG, and LLMs. Contributed to SDL3 with Metal support and boosted project kickoff by 30% via collaborative SDKs.

GeoPortal for PopuLab - React Platform *August 2021 - August 2022*
Designed and built a GeoPortal for PopuLab (Lancaster University-funded), enabling real-time GeoJSON/JSONB data parsing. Integrated Node.js, GraphQL, PostgreSQL 14, Prisma, Hasura, and CSVKIT for dynamic geodata visualization. Supported COVID-19 research on vulnerable populations, contributing to academic publications and community outreach.

Itau Uruguay - iOS Enterprise App *June 2021 - June 2022*
Led development of a secure payroll enterprise app using MVP architecture with Face ID, Touch ID, iToken, and OAuth 2.0. Enhanced authentication and fund transfers, reducing fraud by 40% for over 100K users. Ensured full compliance with banking standards, improving security and operational efficiency.

Pineapel - iOS App *March 2022 - March 2022*
Expertly rescued and modernized a legacy project by upgrading to Xcode 13, harnessing Swift, Texture, and SwiftUI. Optimized performance metrics and eradicated compatibility hurdles, facilitating flawless deployment and bolstering application stability in production environments.

Trainerz Health - iOS App *January 2022 - March 2022*
Directed UI/UX innovation using SwiftUI for a health application tailored to expecting mothers. Integrated Firebase for seamless authentication, data orchestration, and real-time synchronization, surging user retention by 35% via intuitive interfaces and dependable backend infrastructure.

Transcard - iOS SDK and iOS App *June 2021 - December 2021*
Forged a versatile Swift Package Manager-based SDK for financial ecosystems, complemented by a demo application integrating Mastercard, Apple Pay, and OAuth 2.0. Streamlined payment workflows, halving integration durations by 50% and enabling secure, efficient transactions for fintech enterprises.

CreditSesame - iOS App *September 2020 - May 2021*
Pioneered development with VIPER/SwiftUI architectures and Sourcery metaprogramming, optimizing build processes via CocoaPods. Implemented A/B testing through Optimize.ly/Mixpanel, curtailing build times by 50% and fortifying reliability with comprehensive XCTest/XCUITests frameworks.

Cropswap - React Native App *June 2020 - September 2020*
Constructed a React Native application for organic crop exchanges, embedding advanced mapping capabilities. Enhanced user experiences with Redux, catalyzing a 25% uptick in platform adoption within the Los Angeles market.

Boxia - React Native App *January 2020 - June 2020*
Engineered a React Native application featuring Mapbox integration for superior geospatial functionality. Prioritized performance and usability, earning acclaim and high ratings on AppAdvice through meticulous design and optimization.

Swiftli iOS App *August 2019 - December 2019*
Architected an iOS/React Native coworking social platform with Algolia search, Mapbox navigation, and Stripe payments. Amplified user engagement via MVVM patterns and real-time interactions, fostering vibrant community connections.

Blockchain - Mining and Learning *March 2017 - May 2018*
Directed expansive Ethereum mining operations from 2017, authoring smart contracts and integrating APIs such as CoinGate. Achieved 30% cost reductions through groundbreaking Solidity and Node.js advancements, solidifying expertise in blockchain scalability.

Posesionclo.com - WordPress Website *April 2017 - March 2018*
Developed a dynamic fashion e-commerce website for Manufacturas Economicas using WordPress themes, plugins, webhooks, and filters. Elevated online sales by 20% through enhanced functionality and user-centric design.

Hyperspace VR - Unity Game *August 2017 - December 2017*
Single-handedly created a captivating spaceship VR game in Unity 5 with C#, emphasizing modular design and sustained performance at 60+ FPS. Supported iOS 7+ devices, showcasing mastery in VR user interfaces and immersive game mechanics.

Vitral Studio - WordPress Website *August 2017 - October 2017*
Oversaw WordPress development utilizing CLI tools to craft a dynamic website for the studio, enhancing digital presence and interactive user experiences.

TCC Shipping - WordPress Plugin *June 2017 - July 2017*
Engineered a bespoke plugin for shipping tracking and labeling at TCC Colombia, leveraging WordPress API, SOAP, and PHP 7. Streamlined logistics operations, reducing processing times by 25% and boosting efficiency.

Invisible to the Eye - WordPress Website *January 2017 - April 2017*

Crafted innovative UI/UX/UIX designs in Medellin using Adobe Comp CC, XD, and Sketch 3, delivering intuitive and engaging interfaces that prioritize user satisfaction.

MiCosechApp - iOS App December 2016 - March 2017
Developed a robust iOS 9-10 application with Alamofire, Siesta, Sourcery, SwiftGen, and Fastlane. Incorporated Nuke, Cache, and Hue for optimized performance, ensuring seamless deployment and superior user experiences.

InventAR.io - Laravel App July 2016 - March 2017
Innovated an AR-driven shipping and shopping analytics platform with inventory management features. Utilized Laravel, Node.js, Three.js, and Bootstrap to enhance retail efficiencies by 35%, transforming operational workflows.

BabyMoon - UX Design January 2017
Digital concept using Adobe Comp CC on iPad, demonstrating exceptional creativity and proficiency in modern design tools.

PizzaApp - iOS App July 2016
Built a Swift-powered iOS application, emphasizing user-friendly features for effortless food ordering and enhanced customer satisfaction.

Relevant Experience

ENDAVA Remote / Medellín, Antioquia, Colombia
Senior iOS Engineer March 2022 - Present
Delivered advanced iOS solutions for global clients, integrating modern architectures and SDKs. Led initiatives in authentication, analytics, and performance optimization. Collaborated with cross-functional teams to ensure high-quality, scalable mobile applications, and contributed to the adoption of cutting-edge technologies across projects.

Remote / Medellín, Antioquia, Colombia
Colombia Mobile Community Lead February 2023 - Present
Founded and led the Colombia Mobile Community, fostering collaboration and knowledge sharing among mobile engineers. Organized technical sessions, promoted LATAM partnerships, and accelerated project delivery through shared SDKs and best practices. Drove exponential community growth and innovation within Endava's LATAM network.

KOOMBEA Remote / Barranquilla, Atlántico, Colombia
Senior iOS Engineer for Trainerz January 2022 - March 2022
Spearheaded UI/UX advancements in SwiftUI for a specialized health application serving expecting mothers. Embedded Firebase for authentication, data handling, and real-time updates, elevating user retention by 35% through ergonomic designs and solid backend capabilities.

Remote / Barranquilla, Atlántico, Colombia
Senior iOS Engineer for Transcard June 2021 - December 2021
Constructed a VIPER-architected application with Swift Package integration for Apple Pay and Mastercard functionalities. Optimized prepaid and virtual card management, reducing integration efforts by 50% and enhancing fintech operational fluidity.

APPLICA Remote / Montevideo, Uruguay
Senior iOS Engineer for Itau Uruguay June 2021 - June 2022
Architected a secure enterprise payroll application using Swift, UIKit, Fingerprint, FaceID, iToken, and OAuth 2.0. Augmented security protocols and user interfaces for corporate clientele, diminishing fraud occurrences by 40% in a high-stakes banking environment handling 100,000 concurrent users.

PINEAPEL™ Remote / Miami, Florida, United States
Senior iOS Engineer March 2022 - March 2022
Revitalized a legacy project by migrating to Xcode 13 with Swift, Texture, and SwiftUI integrations. Eliminated compatibility obstacles, guaranteeing robust production deployment and elevated performance standards.

ENCORA (FORMERLY AVANTICA) Remote / Cali, Valle del Cauca, Colombia
Senior iOS Engineer for CreditSesame September 2020 - May 2021
Leveraged VIPER/SwiftUI frameworks and Sourcery for advanced metaprogramming. Streamlined build and testing pipelines with CocoaPods and Fastlane, halving processing times by 50% and reinforcing application integrity via XCTest/XCUITests.

CAFETO SOFTWARE On-Site / Cali, Colombia
Senior JavaScript Engineer for Cropswap June 2020 - September 2020
Developed a React Native platform for organic exchanges, incorporating sophisticated mapping tools. Boosted market penetration by 25% in Los Angeles through refined user experiences and Redux state management.

On-Site / Cali, Colombia

Senior JavaScript Engineer for Boxia — January 2020 - June 2020
Crafted a React Native application with Mapbox for enhanced geospatial features. Emphasized optimization and user-centric design, securing top ratings and recognition on AppAdvice.

On-Site / Cali, Colombia
iOS Engineer and React Native Engineer for Swiftli — August 2019 - December 2019
Designed a hybrid iOS/React Native coworking social network integrating Algolia search, Mapbox, and Stripe. Heightened engagement with MVVM architecture and dynamic real-time capabilities, cultivating active user communities.

CODEAPPS — On-Site / Cali, Colombia
Chief Executive Officer — March 2017 - October 2018
Directed company operations, attaining fiscal objectives via strategic implementations in blockchain, web development, and VR technologies. Aligned multidisciplinary teams for sustained growth, navigating challenges with visionary leadership.

On-Site / Cali, Colombia
Blockchain Architect — March 2017 - May 2018
Oversaw extensive Ethereum mining initiatives from 2010 onward, developing smart contracts and API integrations like CoinGate. Realized 30% cost efficiencies through pioneering Solidity and Node.js solutions, advancing blockchain infrastructure.

FREELANCER — Canary Islands, Spain
Back End Developer — February 2014 - March 2015
Engineered backend solutions for TeleVoip, integrating MailChimp/Mandrill services. Maintained multilingual GitHub repositories, optimizing communication and operational strategies for global reach.

Worldwide
Javascript Developer — March 2011 - March 2015
Constructed high-efficiency web applications using Node.js, npm, Gulp, and Express.js. Delivered scalable, premium-quality solutions to diverse international clients, emphasizing innovation and performance.

WEB ARCHITECTURE ROBOTICS — Cali, Colombia
Freelance Designer — February 2010 - February 2014
Specialized in web programming, architectural visualization, and robotics. Employed Rhinoceros, V-Ray, and Python scripting to produce innovative 3D models, surmounting economic constraints with resourceful design approaches.

Leadership

COLOMBIA MOBILE COMMUNITY — Medellin, Colombia
Founder and Leader — 2023 - Present
Founded and led a thriving community dedicated to mobile development collaboration and knowledge exchange. Delivered expert SwiftUI sessions, forged LATAM alliances, expanding membership by 50%. Accelerated project deliveries through shared SDK ecosystems, thriving amidst a regional technological renaissance.

MINISTRY OF NATIONAL EDUCATION (MEN) — Bogotá, Colombia
Top National Scores Saber Pro 2017 – IT Technologist — December 2018
Honored for achieving top national scores in the IT Saber Pro assessment, demonstrating exceptional resilience and proficiency in software engineering despite personal adversities.

INNPULSA - ECOPETROL - ARGOS — Medellin, Colombia
Open Innovation Program in Hydrocarbons and Mining — June 03, 2014
Awarded for excellence in INNPULSA Innovación Abierta, recognizing innovative contributions to open innovation initiatives.

Certificates

BSA Requirements — December 04, 2020
Bankers Academy
Earned Certificate of Achievement for mastering assessment criteria in BSA (Bank Secrecy Act) Requirements, ensuring compliance in financial operations.

AML Requirements — December 04, 2020
Bankers Academy
Attained Certificate of Achievement for excelling in AML (Anti-Money Laundering) Requirements, bolstering expertise in regulatory adherence.

Professional Membership — May 20
Association for Computing Machinery (ACM)

Admitted as a Professional Member of the Association for Computing Machinery, promoting computing as both a science and a profession through ongoing contributions.

EF SET English C1 Advanced June 10, 2020
EF Standard English Test
Achieved C1 Advanced Level certification in English.

AWS Cloud Practitioner December 07, 2023
AWS Training & Certification
Completed AWS Cloud Practitioner certification, demonstrating foundational cloud computing expertise essential for scalable infrastructure design.

Desarrollo de Bases de Datos con SQL April 17, 2017
SENA
Certified in Desarrollo de Bases de Datos con SQL (40 hours), equipping with advanced database development skills for robust data management.

Diseño de Imagen Corporativa October 12, 2016
SENA
Certified in Diseño de Imagen Corporativa, honing abilities in corporate image design for impactful branding strategies.

Carrera de Apple Fullstack March 09, 2023
Platzi
Earned diploma in Carrera de Apple Fullstack, mastering full-stack development within the Apple ecosystem for innovative app creation.

Desarrollo de Competencias en Gerencia y Gestion Empresarial November 08, 2017
SENA
Certified in Desarrollo de Competencias en Gerencia y Gestion Empresarial (128 hours), developing leadership and management competencies for enterprise success.

Curso de Programación de Apps Móviles November, 2015
Universidad Complutense de Madrid
Completed Curso de Programación de Apps Móviles (40 hours), gaining specialized skills in mobile application programming.

Estructura del Lenguaje de Programacion C++ March 31, 2011
SENA
Certified in Estructura del Lenguaje de Programacion C++, building strong foundations in object-oriented programming.

HTML y Javascript March 24, 2011
SENA
Certified in HTML y Javascript, establishing core web development skills for dynamic online experiences.

Generative AI for Developers May 2024
O'Reilly
Completed certification in Generative AI for Developers, unlocking advanced techniques in AI-driven content creation and application development.

RAG May 2024
O'Reilly
Certified in RAG (Retrieval-Augmented Generation), enhancing capabilities in AI model integration and knowledge retrieval systems.

LLMs Operation April 2024
O'Reilly
Achieved certification in LLMs Operation, mastering operational aspects of Large Language Models for efficient deployment and management.
